Aspek Kompetensi

DOMAIN COGNITIVE

- **Knowledge;** (*write, list, label, name, state, define identify, match, describe, outline, recall*).
- **Comprehension;** (*explain, summarize,, describe, illustrate, convert, defend, estimate, extend, give.*)
- **Application;** (*compute, solve, demonstrate, apply, change, discover, modify, operate, show, use*)
- **Analysis;** (*categorize, compare, contrast, separate, breakdown, differentiate, identify, illustrate, relate.*)
- **Synthesis;** (*design, develop, categorize, combine, compile, compose, explain, modify, rearrange, revise.*)
- **Evaluation;** (*recommend, critique, conclude, defend, describe, evaluate, interpret, relate, summarize, support.*)

DOMAIN AFFECTIVE

- **Receiving Phenomena;** menerima rangsangan: awareness, willingness, attention (***ask, choose, follow, give, select***)
- **Responding Phenomena;** menanggapi rangsangan : persetujuan, rasa puas. (***answer, practice, read, report, select, tell, and write.***)
- **Valuing;** (***demonstrate, follow, form, join, justify, report, select.***)
- **Organization;** menginternalisasi nilai (***arrange, combine, complete, defend, explain, formulate, generalize, integrate, modify, order.***)
- **Internalizing Values/Characterization;** Kemampuan menyelaraskan perilaku yg direfleksikan dlm bentuk nilai-nilai dalam kehidupannya. (***act, display, influence, modify, perform, practice, propose, quest, revise, solve, and verify.***)

DOMAIN PSYCHOMOTOR

- **Perception:** Kemampuan menggunakan pancaindra untuk mengatur aktivitas motorik melalui stimulus, seleksi, dan mewujudkan dalam bentuk kegiatan. (*choose, describe, detect, identify, isolate, relate, and select.*)
- **Set:** Kesiapan bergerak (mental, fisik, emosi) (*begin, display, explain, move, proceed, show, state, and volunteer*)
- **Guided Response:** meniru, trial and error. (*copy, trace, follow, react, and reproduce.*)
- **Mechanism:** menjadi kebiasaan (*construct, display, fasten, manipulate, measure, organize.*)
- **Complex Overt Response:** Kemahiran gerak, gerakannya seponatan dan otomatis (*build, calibrate, construct, display, organize*)
- **Adaptation:** Skillnya telah sempurna dapat dimodifikasi (*adapt, change, rearrange, reorganize, revise.*)
- **Origination:** menciptakan pola baru (*arrange, build, combine, compose, cooperate, create, design, initiate, make, and originate.*)
